

REMARKS

By this Amendment the specification has been amended to better comply with U.S. practice and the claims have been revised to correct their presentations and dependencies. Entry is requested.

In the outstanding Office Action the examiner has rejected claims 1, 2 and 4-9 under 35 U.S.C. 102(e) as being anticipated by Rasmussen et al.

This rejection must be withdrawn. The Rasmussen et al. patent has an effective date of August 25, 2003, whereas the present application has an effective date of August 26, 2002 (Danish application PA 2002 01252). A verified translation of this Danish application is submitted herewith. It can be seen that the claims in the present application have full support in the Danish priority application.

As such, the examiner's rejection based on Rasmussen et al. should be withdrawn.

Favorable reevaluation is requested.

Respectfully submitted,

DYKEMA GOSSETT PLLC
